International Freight Forwarding

Services

International Freight Forwarding

Based in Hong Kong, Kerry Logistics currently has more than 550 office locations in 40 countries and territories, with a large agency network across six continents.

We offer comprehensive international freight forwarding services across all continents, connecting China and Asia with the world. In China alone, we have a large team of customs brokers as well as a network coverage of major international airports and ports. Our special capabilities to deal with trade disputes, quota issues, custom and quarantine procedures, changing trade policies and emergency measures, contribute utmost cost-efficiencies to each and every one of our clients.

Our KerrierVISION is a proprietary online platform designed to enhance visibility, accessibility and connectivity by enabling prompt information flow between our customers and their supply chains. It provides a customer portal to our integrated logistics customers and international freight forwarding customers to track their inventory, freight, purchase order and delivery status.
