## Industrial and Material Science Logistics

**KERRY**  
LOGISTICS

A photograph of an industrial facility, possibly a refinery or chemical plant, with various pipes, tanks, and structures. The scene is set against a vibrant sunset sky with orange and yellow hues. A large cylindrical tank is visible in the foreground on the left.

## Asia Specialist • China Focus • Global Network

Kerry Logistics is the premier logistics service provider with a solid presence in Asia and a strong focus on China. With our global network, truly holistic logistics capabilities and international product handling expertise, we put more priority than anyone else on safe management and cost efficiency when delivering your logistics needs.

A photograph showing a large stack of dark blue or purple oil barrels. The barrels are arranged in neat rows, extending into the distance. In the background, a large white industrial storage tank is visible, with the number '1011' printed on its side.

## Your Logistics Specialists

Kerry Logistics provides integrated supply chain solutions from origin to destination in line with the highest international standards. Our specialists in industrial and material science logistics are dedicated to meeting the specific requirements for managing the complete range of your products.

## Total Compliance

We fully comply with health and safety laws, rules and regulations of both our clients and world environment standards. Our trained and certified logistics team provides high quality services with prudent management. Through regular safety training and audit programmes as well as thorough emergency contingency plans, we ensure professional handling of your industrial and chemical products in all situations.

## High Visibility

Our sophisticated logistics management and IT platform KerrierVISION systems enable you to enjoy more visibility and control of orders from the point of production to final delivery.

We constantly strive towards excellence. Through best practice and continuous improvement, we ensure that your industrial and chemical products are kept under optimum conditions throughout the supply chain.

## Extensive Services

With over two decades of experience, we offer world-class solutions in material science logistics across Asia and Europe. We have also expanded our range of services in China with specialised know-how in the treatment, storage and transportation of packaged, dry-bulk or liquid chemicals and petrochemicals.

## Customised Supply Chain Solutions

Working in collaboration with producers, suppliers and end users, we offer extensive supply chain solutions leveraging on in-house expertise and our network of logistics facilities.

- Logistics analysis, consultancy and design
- Engineering, packaging and conveying
- Best practice – SOPs / KPIs
- Logistics process optimisation
- Construction of logistics facilities under turnkey, BOOT, EPCM agreements
- Upgrading and modernisation of existing logistics facilities

## Warehousing and Material Handling

We have established a network of warehouses in China and Asia which are fully licensed to handle hazardous and dangerous goods. Our chemical storage sites are audited to ISO 14001, ISO 9001, and OHSAS 18001 standards.

- Bonded and non-bonded storage
- Order fulfillment
- Bagging, re-bagging and bulking services
- ISO tank / container management
- Container yard operations in strategic locations
- Inventory management
- Raw materials and finished goods management to batch / lot level
- Quality control from packaging quality, stacking to labelling
- Customised reports

## Freight and Distribution Management

Inbound and outbound hazardous cargo is handled at our purpose-built logistics centres around the region. To ensure the timely shipment and transportation of your industrial and chemical products, we provide comprehensive shipping documentation and liaise with relevant government agencies. You can rely on us to distribute all types of industrial and chemical products around the world.

- Domestic and international freight forwarding
- Customs registration and clearance
- Export shipment and customs declaration
- Administration and documentation
- Pan-China distribution through container haulage, and road and barge services
- Customised transportation solutions for:
  - Bulk liquids / dry bulk / packed products
  - Single / multi-compartment equipment
  - Stainless steel / rubber lined / insulated tanks and containers

## On-Site Logistics

We have been experienced in integrated site logistics since 1989. We provide in-plant logistics from design, engineering to operation with established and proven strategies and procedures.

- Bagging and de-bagging
- Drumming, de-drumming and tank loading
- Bulk container loading
- Container stuffing
- Container yard operations
- Administration and documentation
