Supply Chain Solutions

Effective supply chain management means delivering seamless and integrated solutions that bring tangible results to cost efficiency, customer satisfaction and bottom-line results.

Economic globalisation has been the key driver of the logistics industry. Never in the history of the world has the volume of imported and exported goods been greater than today. To support your sourcing and distribution activities in multiple countries, Kerry Logistics is well positioned to offer you customised and integrated solutions in a highly sophisticated supply chains. The benefits are lowered inventory, shortened delivery lead time and significant cost saving.

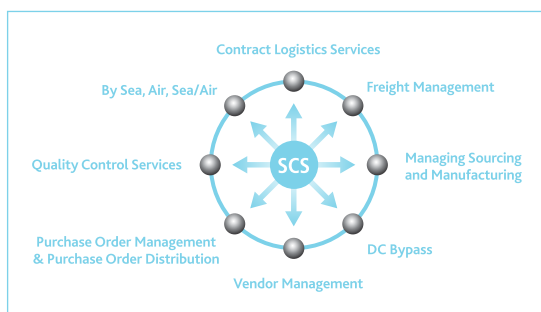

Our dedicated key account management teams consistently devise new operation models and solutions for our clients and manage their supply chains in multiple locations.

Our KerriVISION is a proprietary online platform designed to enhance visibility, accessibility and connectivity by enabling prompt information flow between our customers and their supply chains. It provides a customer portal to our integrated logistics customers and international freight forwarding customers to track their inventory, freight, purchase order and delivery status.
